## [INSTRUCTIONS FOR INJURY CLINIC](#)

**Who:** Student athletes with acute injuries.

**How:** Parent, coach, or athletic trainer **MUST** come with an athlete. If a minor, parental attendance is strongly encouraged. Parental consent will be required for all minors accompanied by someone other than a parent/legal guardian (i.e. athletic trainer, coach, sibling, etc.)

\* **Cost:** [Complimentary for the initial evaluation only \(includes X-rays\)](#). However, we ask athletes to bring insurance cards and/or school claim forms in case further studies other than X-rays (i.e. MRI, CT scans) or durable medical equipment (i.e. braces, crutches) are needed.

**Rehab:** Rehabilitation will be provided by the school's athletic trainer when available and when applicable. When athletic trainers are not available, physical therapy may be completed at local facilities.

**Referrals:** Referrals to other specialists will be suggested when appropriate. For certain insurance policies (HMO), a referral from your primary care physician might be required to follow up in our office for subsequent appointments.

For questions related to injury clinic please call our office at 817-854-9969
